

**Weekly Report**  
**05/04/2019 – 12/04/2019**

This week, I modify my paper. The points were modified as follow

- I added the references and cited the new papers (16 papers).
- I have to clean the papers with new exclusion criteria. The new exclusion is the papers are less than 8 pages. But it is not finished yet.
- The paper rewrite is OK for section 1-3 and the rest section (4-6), will be waiting for my friends to revise again after all the data is clear.

I think it will be done before submitting the ChinaVis one week. I will send you to see after all revise done.

The Data2Video project, Junhua assigned me to extract some exciting point with XvYing in all Hans's video. All done, and we just have a brief meeting today (4.12), and he will arrange the schedule then.
